

81709

Rack Type Trolley

81709 201-202

Type

- In angled steel construction with tubular pushing handle
- **Double wing door, end walls, side wall and top with 40 x 40 x 4 mm wire grid covering**
- Completely welded, powder coated
- With vertical locking rod, with turning lever and installed cylinder lock
- 1 fixed and 4 loose shelves made from load bearing, bending-resistant sandwich panels
- Surface beechwood design
- Clear distance between shelves: 280 mm3
- Load capacity for each shelf, 90 kg
- 2 steering and 2 support rollers
- **Elastic solid rubber tyres**
- **Hubs with ball bearings**
- Stop locks on the steering rollers, **in accordance with European Standard EN 1757-3 (Safety of platform trucks)**

81709 201-202

81709 301-302

Type

- In angled steel construction with tubular pushing handle
- **Double wing door, end walls, side wall and top with 1 mm thick galvanised sheet steel covering**
- Powder coated
- With vertical locking rod, with turning lever and installed cylinder lock
- 1 fixed and 4 loose shelves made from load bearing, bending-resistant sandwich panels
- Surface beechwood design
- Clear distance between shelves: 280 mm3
- Load capacity for each shelf, 90 kg
- 2 steering and 2 support rollers
- **Elastic solid rubber tyres**
- **Hubs with ball bearings**
- Stop locks on the steering rollers, **in accordance with European Standard EN 1757-3 (Safety of platform trucks)**

81709 301-302

81709 301-302

Type

- Tubular steel and sectional steel welded
- Powder coated, blue RAL 5007
- Bolted construction
- **End walls with vertical tubular beams at a distance of approx. 130 mm**
- 1 fixed and 4 shelves made from load bearing, bending-resistant sandwich panels
- Surface beechwood design
- Shelves can be inserted variably at grids of 100 mm
- Load capacity for each shelf, 90 kg
- 2 steering and 2 support rollers
- **Solid rubber tyres**
- **Hubs with ball bearings**
- Stop locks on the steering rollers, **in accordance with European Standard EN 1757-3 (Safety of platform trucks)**

Tool carts (empty), tilt-proof

ATORN®

Type

- Stable sheet steel construction

- Solvent resistant plastic workbench top with 2 integrated storage trays and spray can holder

- Drawers with ball-bearing mounted telescopic rails
- Drawers with 100% extension
 - Internal drawer dimensions W x D 527 x 348 mm
 - Load capacity for each drawer 25 kg

- Total load capacity of the cart, 440 kg

- Single locking function prevents the drawers opening unintentionally

- With single drawer lock - only one drawer can be opened thus ensuring that the cart cannot tip-over

- Drawers with lettering field for the individual marking with pictogram stickers

- All drawers can be used for OPT-I-STORE hard foam inserts (Cat. no. 59603-59692)

- Vertical continuous edge protector on all 4 corners of the cart

- Individual fixing options due to the rectangular hole grid on the side walls, e.g., using hooks for tools or other attachments such as spray can holder, document holder, trays, paper baskets, etc. (Cat. no. 81725 103-105)

- Indented side walls provide additional protection against damage for attachment parts mounted as these are hanging within the cart dimensions

- Central locking with cylinder lock safeguards all drawers, incl. 2 hinged keys

- Plastic coated metal push handle, fixed direct to the frame

- Can be moved using the 2 ball bearing support rollers and 2 steering rollers Ø 125 mm, with stop lock

- Powder coated surface: body, RAL 7035 light grey, drawers /door, RAL 5010 gentian blue

- Delivery incl. 1 partition plate per drawer (additional partition plate Cat. no. 81725 106-107) and pictogram sticker for marking the drawer

Anti-tip safe thanks to single locking function of the drawers - only one drawer can be opened

Central locking with cylinder lock, incl. 2 keys

Info

Tool scanner

Type

Using the tool scanner, with little effort you can create your own individual hard foam inserts with tools from your stock by yourself or with the assistance of a competent HHW employee.

Position your tools easily, quickly and simply according to your desires and requirements at your location.

Benefits of the HHW tool scanner

- The tools are scanned in your company and can be ready for use straight away
- Quick and simple operation direct on location by your employees
- No training necessary
- Many colour combinations
- Any arrangement and partitioning
- Can be ordered from batch size one

Benefits of the OPT-I-STORE hard foam insert

- Quicker access to your tools
- Missing tools are recognised immediately
- Excess tool stock is avoided
- Easy removal
- A high level of oversight and organisation
- Protected storage

Note:

Scanning area: 556 x 556 mm

Case size: 620 x 620 x 130 mm

Max. size of the OPT-I-STORE hard foam insert: 1000 x 1500 mm

Max. material thickness: 90 mm

Simple, quick and straightforward!

The HHW tool scanner includes everything that you need for optimum use. Using the user-friendly operating instructions, you can create a hard foam insert perfectly matched to your requirements in no time at all.

The optimum storage of your tools!

You record all tools using the HHW tool scanner.

You send us the scanned images per e-mail.

We will send you the layout including handle notches for approval per e-mail.

Your hard foam insert is produced according to the approval of your layout.

Interested?

You can obtain information and consultation direct from your HHW field employee.

Workshop and Tool Cart (Empty)

Type 179XL

Type

- With 6, 7 or 8 drawers
- Colour: HAZET blue®
- 2-step locking concept:**
- Central locking, locked by a cylinder with 2 hinged keys
- Reciprocal pull-out stop for minimum risk of tipping

Robust and technically well thought-out:

- Stainless steel worktop for high stress
- Static total load capacity: 1,000 kg
- Stable push bar permanently mounted to the body, for the highest pulling force
- Vertical continuous edge protector on all four corners of the cart
- Solvent resistant plastic cover elements (against oil, brake fluid, Skydrol) with shelves for small parts
- Border protects parts from falling down

Type with drawers:

- 40% more drawer volume than conventional tool carts
- High load capacity, each 40 kg / drawer
- All drawers can be opened to 100% using the ball-bearing mounted telescopic rails

- With integrated self-closing and soft closing
- Suitable for HAZET tool organiser and safety insert system
- Labelling of the drawers possible for identification
- Internal drawer dimensions: width 694 mm x depth 398 mm

Different additional fixing options:

- Individual fixing options thanks to the rectangular hole grid on the side walls, e.g., using hooks for tools or other attachments such as spray can holder, paper roll holder, paper baskets, etc.
- Indented side walls provide protection against damage for attachment parts mounted as these are hanging within the cart dimensions

High quality chassis:

- High-quality, large, heavy duty rollers with precision ball bearings (Ø 125 mm) and 2-fold ball race in the pivot bearing ensure for a easy movement, even when exposed to dynamic loads
- 2 steering rollers with double stop lock: braked roller prevents rolling away, braked pivot bearing prevents the steering rollers from turning, e.g., on slanting surfaces
- Grey non-marking elastic rollers permit smooth running

Tool cart with 4 drawers

GEDORE

Type 1580

Type

- Double sided metal shutters to secure the whole-internal space
- Working platform with cover made from ABS plastic
- With handle for easy pushing, pulling and turning
- Side walls with EURO perforation 10 x 38 mm for fastening hooks and tools
- All-round heel and impact protection for your safety
- Sheet steel, corrosion resistant and scratch-proof powder coated, GEDORIT blue

Drawers:

- Central locking with cylinder lock
- 4 wide drawers (W 480 x D 325 x H 45 mm), all drawers can be opened from either side
- 1 deep storage at base
- Ball-bearing guide rails, with middle and end catches
- Can be individually equipped with length and crosswise dividers (also available separately)
- Load capacity per drawer, 20 kg
- Sheet steel, corrosion resistant and scratch-proof powder coated, GEDORIT silver

GEDORE chassis

- 2 GEDORE high-performance wheels on roller bearings (fixed castors Ø 140 mm)
- 2 GEDORE smooth running wheels on ball bearings (swivel castors Ø 100 mm), one with total brake
- The GEDORE trapezoidal axle construction secures smooth running, manoeuvrability and track-keeping also in case of maximum loads

Options:

- Can be equipped with GEDORE tool modules (1500 ES/1500 CT)
- Easily extendable with GEDORE tool chest 1430, 1431, additional drawer KSF 1580
- Special colours and designs available on request
- Delivery without tools and accessories

Note:

Length (LT) and crosswise (QT) dividers made from galvanised sheet steel available as accessories.

- Work platform with platform made from ABS plastic
- With handle for easy pushing, pulling and turning
- Side walls with EURO perforation 10 x 38 mm for fastening hooks and tools
- All-round heel and impact protection for your safety and the surroundings
- Sheet steel, corrosion resistant and scratch-proof powder-coated, GEDORIT blue

Drawers:

- Central locking with cylinder lock
- 5 wide drawers (W 480 x D 325 x H 45 mm), all drawers can be opened from either side
- 1 deep storage at base
- On ball-catch bearings, with middle and end catches
- Can be individually equipped with length and crosswise dividers (also available separately)
- Load capacity per drawer, 20 kg
- Sheet steel, corrosion resistant and scratch-proof powder-coated, GEDORIT silver

GEDORE chassis

- 2 GEDORE high-performance wheels on roller bearings (fixed castors Ø 140 mm)
- 2 GEDORE smooth running wheels on ball bearings (swivel castors Ø 100 mm), one with total brake

- The GEDORE trapezoidal axle construction secures smooth running, manoeuvrability and track-keeping also in case of maximum loads

Options:

- Can be equipped with GEDORE tool modules (1500 ES/1500 CT)
- Easily extendable with GEDORE tool chest 1430, 1431
- Special colours and designs available on request
- Delivery without tools and accessories

Note:

Length (LT) and crosswise dividers (QT) made from galvanised sheet steel available as accessories.

81765

Tool Carts

Type JET GM3
Type

- **Worktop plate:** Deep drawn aluminium (2 mm thick) reinforced with a 15 mm thick wooden plate.
- Protective caps made from impact resistant polypropylene.
- A vice (free space) or pipe tool can be mounted.
- Completely integrated push bar made from bi-metal with soft coating.
- Holder for 16 screwdrivers.
- 2 fixed edges at the front and rear.
- **2 retractable edges:** when exposed to heavy loads, the edges lower into the worktop plate.
- Central locking, lock with hinged key.
- SOFT buffer at the 4 corners of the tool cart.
- Drawer buffer to protect the aluminium hook and as a shock absorber.
- Low effort for moving (less than 7 kg pushing force).
- Long service life (chip repelling, resistant against the most common hydrocarbons).

- Static load capacity 900 kg.
- 2 fixed castors and 2 swivel mounted, 1 of which with stop lock.
- **Epoxy powder coating**, particularly impact and scratch resistant, black.
- Corrosion resistant handle made from anodised aluminium.
- The drawers can be opened completely.
- Using the removable dividers, the drawers can be partitioned as desired.
- **Delivery with a set of dividers**, additional dividers are optionally available.
- Marking the contents of the drawers with the pictogram sheet provided.
- The tool carts are compatible with the modular organisation system from FACOM (optionally available).
- The side walls and the recessed rear wall can be fitted with different accessory parts such as holders for spray cans, additional cabinets, etc.
- The side walls are perforated for hanging tools onto hooks or holders (not supplied).

Tool Carts

Type CHRONO+

Type

Safe is better:

- Opening the drawers in a safe manner: To open the drawers, first the handle must be tipped. No unintentional opening of the drawers when moving.
- Central locking of the drawers using a cylinder lock (supplied with 2 keys, 1 of which is a hinged key)

Highly resistant worktop plate:

- Impact resistant, worktop plate resistant against hydrocarbons
- Max. load 850 kg
- 2 integrated handles: one is used as a pulling handle and the other for lifting the tool cart to make overcoming obstacles easier
- Recessed work surface as roll protection
- A bench vice can be mounted.

Service performances:

- The recessed side walls can be fitted with all side accessory parts from the JETXL product range
- Supplied with removable dividing inserts

81740 301

Type

- 6 drawers= 15 modules, divided into 60 und 130 mm drawer heights
- Supplied with 6 partitions for 60 mm drawer heights and 2 partitions for 130 mm drawer heights
- The 270 mm drawers can also be fitted with modules

81740 302

Type

- 7 drawers = 18 modules, divided into 60 and 130 mm drawer heights
- Supplied with 6 partitions for 60 mm drawer heights and 2 partitions for 130 mm drawer heights
- The 200 mm drawers can also be fitted with modules

Tool Cabinet for CNC Tools (Empty)

83955 501

Tool cabinet series 70

Type

With plastic-coated cabinet top. 4 ball-bearing mounted drawers, 100% extension.

Front height: 75 and 125 mm V 80, load capacity 80 kg.

Front height: 300 and 400 mm V 200, load capacity 200 kg.

Standard finish: Housing RAL 7035 light grey.

Drawers RAL 5012 light blue.

Without tool holder supports

(cat.-no. 83950) and plastic inserts

(cat.-no. 83945).

Use

The drawers with a front height of 300 and 400 mm can each hold 5 tool holder supports cat.-no. 83950.

Note:

Tool frames for tool holders see cat.-no. 83952.

83955 605

Compartment rails

Type

Pairs.

Use

For fixing the tool holder supports (cat.-no. 83950) inside the drawers of the tool cabinet, cat.-no. 83955 501.

The vertical drawers of the Apfel tool cabinets WKS enable you to store your tools safe and clearly arranged and still saving space.

HHW - Apfel tool cabinets - practical, robust and safe

Perfect solutions, made by professionals for professionals, can optimise the processes in your production as well. Create functionality and order even with limited space in order to facilitate your daily work.

Robust design made of powder-coated steel for a long service life.

Lockable drawers with lettering area.

Maximum order at minimum space - the multi-purpose tool cabinet WKS made by Apfel. One square meter gives you enough room to store hundreds of tools (e.g. 480 milling tools SK40 at WKS 002).

Direct access to the tools from both sides for improved occupational safety, because you do not have to reach across the tools

Customisable with different holding fixtures and mounts for a perfect usage of space in your production

WKS 002

European patent!

Maximum load capacity 4.500 kg, per drawer up to 900 kg (depending on the wheels up to 1.800 kg) wheel load capacity thanks to extremely sturdy plastic wheels

WKS 003

Lifting bags for pallet trucks or forklifts for a quick change of location when empty

Please choose from our extensive range of sets or customise your tool cabinet with the applicable tool holders depending on your requirements.

Direct access to the tools from both sides.

Storage area for small parts in each drawer

Highest load capacity thanks to wheels

Lifting bags for easy change of location

Type

- Robust design made of powder-coated steel for a long service life.

Mobile cabinet and accessories

83993 101

Mobile cabinets

Type

Made of galvanised sheet steel, visible surface RAL 5012 light blue. Incl. of 2 stainless steel handle and 4 support rollers without brake.

Note:

Also available with H 1250 x W 773 x D 1100 mm. Accessories (door, shelf, wheel guidings) see cat.-no. 83993 102-104.

83993 102

Door

Type

Two-part, made of galvanised sheet steel, RAL 7035 light grey. Incl. of snap closures and lock on one side of the mobile cabinet.

Use

For mobile cabinets cat.-no. 83993 101.

83993 103

Storage shelf

Type

Galvanised. Incl. of support bracket set, for hanging or fastening with screws.

Use

Can be used as tray when turned over. For mobile cabinets cat.-no. 83993 101.

83993 104

Wheel guiding rail

Type

Made of galvanised sheet steel 1,5 mm.

Use

For support rollers, distance between wheels 81 mm. For mounting on the floor. For mobile cabinets cat.-no. 83993 101.

83995

Kanban shelving unit

83995 101-103

Type

Customised components for kanban-controlled logistics.

The shelves can be mounted every 50 mm and can be inclined in different angles. All models have four smooth-running steering wheels with stop lock and therefore can be moved around and fixated in a certain spot with ease.

Housing: RAL 5012.

Use

These articles have been especially designed for series production. You can choose the necessary components in accordance to size, attachments, placement, flow of materials, etc. and therefore customise your own storage system and make use of this highly efficient logistics concept.

Note:

Suitable plastic containers see cat.-no. 83401-83405 and 83350.

Additional shelf see cat.-no. 83995 201-203.

83995 201-203

Additional shelves

Use

For kanban shelving units, cat.-no. 83995 101-103.
