83401 - 83405

Storage Bins

Type

- Made of polyethylene, break-proof design, dimensionally stable, and extremely durable.
- Safe and ergonomical handling thanks to large, multiply reinforced recessed grips on both edges (size 2 - 4), handle (cat.-no. 83411) can be added.
- The specially shaped rail in the back allows for horizontal removing and replacing of the bins to the RasterPlan slotted panels (starting at cat. no. 82482) even when full (size 5 - 8), therefore no spilling of the contents..
- All around stacking edge.
- Temperature-resistant from -40° - +80°C.
- Resistant against acids, oils and alkalines.
- Easy cleaning thanks to smooth inner walls, food safe.

- Rib reinforcement on the edges of the base.
- Label holder with special clamping devices which prevent the labels from sliding out.
- Environmentally friendly, fully recyclable.

Use

For the usage on conveyer belts.

Note:

Top and labels not included.
Accessories for storage bins see cat.-no. 83406 cont.
Label writers DYMO see cat.-no. 78440 cont.
ESD version see cat.-no. 83412.

KAPPES

83540

Type

The bins' dimensions are in accordance with the standard shelf dimensions. Made of impact-proof polypropylene, pigeon blue. Temperature resistant from -40° bis +70°C. Resistant against many acids and alkalines. Stackable. Environmentally friendly, fully recyclable.

Use

These long storage bins stand out due to their high load capacity. Thanks to the differently sized version, there are many different storage possibilities for small parts.

Note:

Accessories (cross dividers, longitudinal dividers, labels) for long storage bins see cat.-no. 83541.

83541 101-103

Cross dividers

Type

Exact fit of the cross dividers thanks to guide-faces.

Use

For long storage bins cat.-no. 83540.

83541 201-206

Longitudinal dividers

Type

Exact fit of the longitudinal dividers thanks to guide-faces.

Use

For long storage bins cat.-no. 83540 (not for width 113 mm).

83541 301-303

labels

Use

For long storage bins cat.-no. 83540.

83350 - 83360

Euro Transport Stacking Boxes

Type

- 8 box sizes in 3 bright colours
- Maximum stability
- Extremely high load capacity (high crush resistance)
- Strong reinforcement ribs and sturdy stacking edge all around
- Double-walled, rounded and reinforced corners
- Temperature resistant from -40°C to +90°C
- Smooth inside, thus easier to clean
- Food safe
- Resistant against many most common acids and alkalines
- Quiet running on conveyor lines
- Designed for storage and retrieval machines
- Environmentally friendly, fully recyclable

Use

The Euro transport stacking boxes are matched to the dimensions of the Euro palettes and correspond with the storage and materials handling technology of today. The stacking boxes manufactured from polypropylene are robust and have a high load capacity and can be stacked on top of each other.

Info

Stackable bins type ST

Made of sheet steel, powder-coated or galvanised, and made of stainless steel. Stackable bins made of sheet steel are very sturdy and especially suitable for usage in the metal-working industry. The very high load capacity of up to 3.000 kg proves the point. The upper edge is folded, reinforced with an all-around bead and makes the bins stackable. A drop handle is located on the face.

Basic version: RAL 3000 (flame red), RAL 5015 (sky blue), RAL 6011 (green), RAL 7031 (blue-grey), hot-galvanised. Special lacquers and/or embossments available on request.

Bins are stackable with each other dependent on the storage bin size.
